

# Soldier Story Mask

## Supplies

- copies of the Soldier Story Mask (1 per child)
- crayons or washable markers
- scissors
- craft sticks (1 per child)
- glue or clear tape

## Directions

Help children color and cut out the Soldier Story Mask. You may need to cut out the eyes for the children. Assist children in attaching the story masks to craft sticks by gluing or taping a stick to the back, bottom portion of each mask (see the example). Children can use the story masks to retell the story of Jesus healing the soldier's servant as they play the part of the soldier. Children can tell about the soldier having such great faith in Jesus that he believed Jesus didn't even have to come to his house for his servant to be healed.
